About me:

I study a Masters in Computer Science and Engineering at DTU. Programming is one of my big passions, and have, ever since I started, always interested me. When I stand before a solution, that has to be implemented, I see an exciting intellectual challenge and not just a boring task I have to get through.

EXPERIENCE

DSA, *Developer*

3/1/2018 - 26/3/2018

Internship at the company DSA, where I had to develop a popup box (using Windows Presentation Foundation) for editing member addresses.

MentorDanmark, *Developer*

1/5/2018 - 2/6/2018

Developing a prototype for a booking system.

IT-Minds, *Developer*

26/8/2019 - 1/11/2019

Internship at the IT-consultant company IT-minds, where I worked on various projects including a chatbot for Slack

EDUCATION

Gentofte Studenterkursus (HF)

Done 2015

Københavns Erhvervsakademi (Datamatiker)

Done 2017

DTU (BSc Software Technology)

Done 2020

DTU (MSc Computer Science and Engineering)

Started 2020

LANGUAGES

- Danish (Fluent)
- English (Fluent)
- A little German (still learning)

COMPETENCES

- Can be both a teamplayer but also work independently.
- Can work focused.
- Can keep a deadline..
- I find programming interesting and stimulating, not boring and draining.

PROGRAMMING LANGUAGES

- Javascript/React/Angular/Express/Node/Jquery
- CSS/HTML
- Java
- C#/ASP.NET
- Bash scripting

VERSION CONTROL

- Git
